Forgotten Books, United States, 2017. Paperback. Condition: New. Language: French . Brand New Book ***** Print on Demand *****. Excerpt from Considerations sur la Structure Et la Genese des Bancs de Terre-Neuve Un point est determine par deux coordonnees. Dans le cas actuel, les deux coordonnees physiques sont la profondeur et la nature du fond; le point est donc fixe ou tout au moins il est compris entre des limites si resserrees qu'il est presque determine. Supposons en effet une carte bathy metrique par courbes dont les aires sont teintes en bleu d'autant plus foncée que la profondeur correspondante est plus grande, puis une carte geologique sommaire, a meme echelle, donnant en nuances tranches, comme les cartes geologiques continentales, les aires recouvertes de sable, de gravier, de vase, de sable vasard ou coquillier, pour nous contenter des termes en usage sur les cartes marines. Ces cartes etant sur papier transparent, en les superposant, la non-concordance des couleurs permettra, apres un seul sondage, de reconnaitre la position du navire; leur inspection restreindra immediatement le nombre des positions possibles et, s'il restait encore un doute, il suffirait de s'avancer dans une direction connue. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
