Speculative!, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. Robin Sinclair, five years old, is travelling through interstellar space with her family. She has lost her doll. As with The Twilight Zone, the books of Madeline L Engle, and other gems from the golden age of science fiction, A World Called Crimson uses the simple desires of children as a dependable wire on which to walk through the strange. In one of Darius John Granger s most popular stories, young Robin and her brother suffer a crash onto a planet where desires are realized simply by the power of the mind. With humor and taste, performer Jim Roberts brings to life this magical world populated by children s wishes and threatened by their nemeses.the adults.
