McGraw Hill Education, 2012. Hardcover. Condition: New. First edition. The power distribution sector in India ails from high AT&C losses, deteriorating infrastructure, low access, and poor financial health of most utilities. The issues get compounded due to low focus on service quality and consumer welfare. Through the case studies in this book, we are trying to show a small way to overcome some of these hurdles. We present here some live examples of technology and process interventions which have the potential to significantly improve the distribution sector. The section on Smart Grid suggest the direction in which Indian distribution utilities should focus to take leap frog advantage of this game changing vision for a better future. Table of Contents 1. Introduction: Objectives Of Case Studies 2. Drum Project: An Introduction 3. White Paper: KPI Methodology 4. White Paper: The Consumer Satisfaction Survey Process For Indian Electricity Utilities 5.
