By the year 2025 full blown war will break out in the USA. Review: A RIP ROARING ADVENTURE . I love adventure stories, especially those that involve current topics of national interest. This one delivers on both. I rate this book up there with those written by CLIVE CUSSLER (one of my faves) in terms of page-turner quality! I loved every minute of this book, which was a great roller coaster ride. A great read! WHAT A GREAT BEGINNING FOR THE SERIES. TOCABAGA is an interesting story captures the imagination and takes you into post-apocalyptic America. How would/could you adapt/survive the situation? Recommend this book to anyone interested in post-apocalyptic novels. This review is from Tocabaga. This Ward guy is the real deal. He knows how to write realistic stories...

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).
