Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Propagation of Electromagnetic Waves From an Arbitrary Source Through Inhomogeneous Stratified Atmospheres This argument is applied first to the case where a source is located below a semi-infinite non-homogeneous medium and the field in the medium is then determined. The more general case of an arbitrary source located between two semi infinite media is treated next. This section can be specialized to treat the case of a source of radiation located above the earth. The main result of the paper is embodied in formulas and which give the expressions for V and w . About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
