

The Canadian Naturalist and Quarterly Journal of Science, Vol. 4: With the Proceedings of the Natural History Society of Montreal (Classic Reprint) (Paperback)

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.
(Mitchell Kuhn III)

THE CANADIAN NATURALIST AND QUARTERLY JOURNAL OF SCIENCE, VOL. 4: WITH THE PROCEEDINGS OF THE NATURAL HISTORY SOCIETY OF MONTREAL (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Canadian Naturalist and Quarterly Journal of Science, Vol. 4: With the Proceedings of the Natural History Society of Montreal The building of the Sheffield School is better than that of Columbia College, though it is an old medical school adapted to its present use; and the scope of the institution is wider, including six distinct courses, any of which may be followed by the student. These are: 1st, Chemistry and Mineralogy; 2nd, Engineering and Mechanics; 3rd, Mining and Metallurgy; 4th, Agriculture; 5th, Natural History and Geology; 6th, A Select Scientific and Literary Course. The classrooms and laboratories struck me as remarkably ingenious and neat in all their arrangements, and combining in a great degree all possible contrivances for the convenience of Professors and students. The bungling and uncomfortable arrangements too often seen in Academic rooms had evidently here been replaced by the exercise of some engineering and mechanical skill and contrivance, and by a combination of lecture room and cabinet the means of illustration had been rendered extremely accessible. In token that the Sheffield School is not altogether a school of mines looking down into the bowels of the earth, its liberal founder has presented it with an Equatorial Telescope, made by Clark, with an object glass having an aperture of nine inches. It is placed in a tower constructed for it; and with a meridian circle and other instruments, enables students to learn all the work of a regular observatory, as well as the operations of astronomical geodesy. Any one interested in the training of the young men of Canada can scarcely avoid a feeling of envy in visiting such an institution as this,...
