Not illustrated. 1907 Excerpt: .which is not naturally sweet could not be sold as one which is naturally sweet by mixing with sugar without violation of the law. unless the addition of sugar is plainly indicated on the label. The addition of sugar to canned vegetables is not for preservative purposes. Added sugar increases the tendency to fermentation. It is added wholly as a condimental ingredient. Sodic nitrate plays a very important role as a beet fertilizer and upon general principles it may be admitted that (60 kilos may be used to the acre, half of which at the time of seeding as a surface dressing, the remainder in equal quantities just before the first and then before the second hoeings. The soil dressing under these conditions means that the plant food has been assimilated under the best possible conditions and there need be no apprehension of loss in case of excessive rains, etc. Books and Pamphlets Received Progress of the Beet Sugar Industry in the United States, in 1906. Report No. 84. U. S. Department of Agriculture. During the past ten years these reports have appeared, written by a special agent. There is some new data, but the same old facts continue to be printed. The year 1906 broke the record in beet sugar production, as more factories were built than during any other year. The State of Michigan, prior to the introduction of sugar beets, had no developed stock interest. There is now a rapid development. We have...
