

Studies on Solution in Its Relation to Light Absorption, Conductivity, Viscosity and Hydrolysis: A Report Upon a Number of Experimental Investigations Carried Out in the Laboratory of the Late Professor Harry C. Jones

By Harry Clary Jones

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Studies on Solution in Its Relation to Light Absorption, Conductivity, Viscosity and Hydrolysis: A Report Upon a Number of Experimental Investigations Carried Out in the Laboratory of the Late Professor Harry C. Jones The several chapters comprising this report represent the various lines of investigation pursued under the direction of the late Professor Harry C. Jones during the year 1915-16 and in the case of the work of Davis and Johnson continued in 1916-17. Although somewhat diverse in nature, they all bear directly or indirectly upon the conceptions of solution in general and of solvation in particular which have been developed in this laboratory during the past fifteen years. Dr. Hulburt and Dr. Hutchinson have measured the absorption coefficient of solutions of a number of salts in different DEGREES solvents for monochromatic radiation. They have calculated from this the molecular absorption coefficient for such solutions and have made a careful comparative study of the molecular absorption-concentration curves. The investigation of formamid as a solvent, begun by Davis and Putnam, has been continued by Dr. Davis...

Reviews

It in a single of my personal favorite ebook. Better then never, though i am quite late in start reading this one. I am effortlessly will get a satisfaction of reading a published ebook.

-- Ms. Lavada Krajcik

Comprehensive guideline for book lovers. It can be filled with knowledge and wisdom I realized this publication from my dad and i suggested this pdf to find out.

-- Ted Schumm
