

Hazardous Waste Disposal

By Lehman, John P.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Putting together these Proceedings has afforded me the opportunity to re-read the papers which were presented last October here in Washington. In retrospect, the 1981 NATO/CCMS Symposium on Hazardous Waste Disposal maintains the impression of excellence expressed by the participants at the actual event. The scope of the subject-matter and quality of its presentation indicate that we did attain the Symposium's objective--a comprehensive review of the international status of hazardous waste disposal. It is my hope that in your own evaluation of these proceedings, you will share my conviction that the Symposium--conceived three years ago, approved by the NATO/CCMS Pilot Study experts in Oslo in October 1980, and taking place a year later--was indeed worthwhile and that this record of its proceedings will be useful for many years to come.
