

ICD-10-CM 2018 Snapshot Coding Cards: Pediatrics

ICD-10-CM Snapshot 2018

Pediatrics

Pediatric Coding Tip

When additional information isn't coded or available about a pediatric health condition, it is more likely that it is available to report the appropriate "suspected" code, e.g., a diagnosis of pneumonia has been determined, but not the specific type. Suspected codes should be placed when they are the only code that meets accuracy. When there is a question about the accuracy of the type of the particular encounter.

The inclusion of the "suspected" codes also can be used if a code is needed.
