Excerpt from Factors Contributing to the Acquisition of Information in Certain Fields: A Study of Certain Factors in the Background of One Hundred Women Students Making Extreme Scores on a Test of Science, Foreign Literature, Fine Arts, and History and the Social Studies In 1928 the Carnegie Foundation for the Advancement of Teaching in cooperation with the joint Commission of the Association of Pennsylvania College Presidents and the State Department of Public Instruction began a seven year study in the schools of Pennsylvania. This study included a testing program extending from the junior high schools through the colleges and universities. As a part of this study the sophomore students of the colleges and universities were given a series of tests in May Of 1930. Otis scores were Obtained for each student. Form C, a thirty minute test, was used. Examinations were given in the common subjects: English, mathematics, history, languages, and the sciences. The last of the series was designated a test of general culture. It tested knowledge of sciences, foreign literature fine arts, and history and the social studies. This was a so-called new type examination, consisting of questions in the true-false, multiple choice, and matching forms.
