Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Contents: A workbook containing 30 days of basic review exercises for bridging the gap between high school math and college work. Each daily section contains a short exercise set covering basic skills necessary to perform well in an introductory college mathematics course. Focus has been placed on those skills learned by students in high school which are difficult to retain without continued practice and result in less-than-adequate performance in introductory college mathematics courses. The exercise collection in Part I is designed for skill enhancement in basic mathematics skills such as factoring, solving equations, understanding and using function notation, working with exponents and radicals, etc. Rather than being all-inclusive, the work strives to provide continued practice in the most fundamental skills necessary for successful college work. Daily work notes are provided in Part II that speak directly to the pertinent aspects of each day's exercise set. The directions, review notes, and hints provide guidance in areas where students frequently require a brief refresher. Brief and to the point, with examples when needed for clarity, these work notes add an extra dimension to help students stay on track and progress through the exercise sets. Part III contains a complete answer set. Written by a Professor of Mathematics who has taught thousands of students introductory and advanced mathematics, this workbook provides a cost-effective self-study approach to help bridge the gap between high school and college math. With the resources necessary for students to stay current and be prepared to hit the ground running when entering college, it is an approach worthy of consideration to help you or your child realize a successful start to a college career. With the costs...
