According to Randall Stein, 2008 is about to happen again. His decades of experience in investment banking have made him wary of the current market. He sees all the indicators that today s housing market-the second-biggest housing boom of all time-is about to collapse. He doesn t want you to be one of the unlucky ones hurt by a new financial crisis! In this direct guide, Stein focuses on one aspect of investments-real estate. His no-nonsense advice tells you exactly why it s a bad idea to buy a home in the current market. Stein goes on to discuss the many signs of the impending disaster, the life span of a housing bubble, the effects of hedge funds and foreign investors on the market, the similar lessons that can be applied to stocks, and the true future of the housing market.
