Date :2010-12-01 version 2. Engineering electromagnetic field theory (version 2) from the Department of Higher Education for the 21st century. the reform of teaching contents and curriculum research project results. the first edition is the 21st century curriculum materials. and was also included in the general higher education. 15 national teaching plan. The materials continue to be included in the general higher education. Eleventh Five-Year national teaching plan. Book system for engineering education to students to broaden Electric Information caliber professional development standpoint. the electromagnetic field to follow the growing integration of engineering and related disciplines characteristics. highlighting the combination of strong and weak electrical. electromagnetic theory and engineering practice with . to better deal with the relationship between the physics of electromagnetism. and the introduction of the electromagnetic field application engineering topics to demonstrate the electromagnetic field with a combination of cutting-edge science and asked point. The book mainly as follows: mathematical and physical basis of the electromagnetic field. the static electromagnetic field (electrostatic field). the static magnetic field (constant current of the electric and magnetic fields). the dynamic electromagnetic field (basic theory and quasi-static electromagnetic fields). the dynamic electromagnetic Yang (electromagnetic radiation and electromagnetic waves) and electromagnetic field application engineering topics. Engineering Electromagnetic Field Theory (2nd edition) for universities and colleges Electrical Information Professional as the electromagnetic field course materials. reference is also available to the scientific and technical personnel. This book is edited by the Ni-ray. Contents: Introduction 1 study of electromagnetic phenomena in electromagnetic field theory to establish 2 field descriptions 3 electromagnetic field electromagnetic engineering disciplines and 4 curriculum and content of Chapter 1 of the electromagnetic...
