Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The increased use of drones for civilian applications has presented many countries with regulatory challenges. Such challenges include the need to ensure that drones are operated safely, without harming public and national security, and in a way that would protect areas of national, historical, or natural importance. A variety of the countries surveyed in this report have also made efforts to address concerns regarding the property and privacy rights of landowners or other persons impacted by the operation of drones. International standards to regulate certain aspects of drone operations are currently being considered by the International Civil Aviation Organization (ICAO). In 2011 the ICAO issued a circular titled Unmanned Aircraft Systems (UAS) (CIR328). Serving as a first look at the subject, the circular calls on states to provide comments, particularly with respect to its application and usefulness, in an effort to proceed with the development of the fundamental international regulatory framework through Standards and Recommended Practices (SARPs), with supporting Procedures for Air Navigation Services (PANS) and guidance material, to underpin routine operation of UAS throughout the world in a safe, harmonized and seamless manner comparable to that of manned operations. Efforts to harmonize rules of drone operations are currently being undertaken by the European Commission, which has introduced a proposal to integrate all drones, regardless of their size, into the EU aviation safety framework. While some individual countries have adopted legislation or implemented temporary provisions on the operation of drones, various regulatory and legislative proposals are currently being considered. This report surveys the regulation of drone operations under the laws of twelve countries as well as the European Union. Countries surveyed use different terminology in regulating drones. Such terms include unmanned aircraft systems (UAS); unmanned aerial [or air] vehicles (UAVs), and remotely piloted aircraft (RPA). For the purpose of...
