Kids Can Press, Canada, 2015. Paperback. Book Condition: New. Reprint. 183 x 137 mm. Language: English . Brand New Book. Poking mild fun at grown-ups throughout, author Catherine Rondina covers a range of warnings, advice and truisms children will be familiar with, and bases all of her judgments on hard science and research. In order for kids to be able to test themselves without peeking, each fact is described on the right-facing page, and a page turn reveals the true or false verdict, along with a full explanation. Humorous black-and-white line drawings by Kevin Sylvester liven up the text. The children who love these kinds of juicy compendiums of information may choose to read this one straight through. Teachers will want to keep it handy on a nearby shelf to refer to in many types of science lessons. It also works for exploring the importance of critical thinking and research in order to understand the difference between what seems true and what is true. The Parentisms: An Overview at the back of the book offers a list of favorite parental expressions, which could be used for language arts writing assignments or other creative expressions.
