CURIOSITIES OF NATURAL HISTORY, IN FOUR VOLUMES THIRD SERIES

[DOWNLOAD](#)

Cosimo Classics. Hardcover. Condition: New. 384 pages. Dimensions: 8.5in. x 5.5in. x 1.0in. A pioneer in the strange art and ambiguous science of zophagy—that is, of studying animals by eating them—British natural historian FRANCIS TREVELYAN BUCKLAND (1826-1880) was a wildly popular speaker and writer of the Victorian era. In his classic four-volume *Curiosities of Natural History*, published between 1857 and 1872, he shared his love of creatures exotic and mysterious with readers who devoured his charming and erudite essays much in the same way he devoured his animal subjects. If there is one person that I would have expected to have captured a sea serpent in the 19th century for the sole purpose of eating it, it would be Frank Buckland, writes cryptozoologist Loren Coleman in his new introduction to Bucklands series. One of the founding grandfathers of cryptozoology, the discipline that investigates animal mysteries, Buckland was not a wild-eyed true believer in anything strange, insists Coleman, but brought, instead, a skeptical, open-minded approach to his work. Indeed, here, in the third series of *Curiosities of Natural History*, Bucklands erudition is clear in his animated discussions of, among many other things, a monster lobster, a zoological auction, traps for wild monkeys, the sensation of camel-riding, and determining the temperature of a porpoises breath. This new edition, a replica of the 1888 Popular Edition, is part of Cosimos Loren Coleman Presents series. LOREN COLEMAN is author of numerous books of cryptozoology, including *Bigfoot!: The True Story of Apes in America and Mothman and Other Curious Encounters*. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
