Excerpt from Account of the Russian Discoveries Between Asia and America: To Which Are Added, the Conquest of Siberia, and the History of the Transactions and Commerce Between Russia and China As the author has not prefixed his name, I should have paid little attention to an anonymous publication, if I had not been assured, from very good authority, that the work in question was compiled from the original journals. Not relying however upon this intelligence, I took the liberty of applying to Mr. Muller himself, who, by order of the Empress, had arranged the famous journals, from which the anonymous author is said to have drawn his materials. Previous to my application, Mr. Muller had compared the treatise with the original papers and he favoured me with the following strong testimony to its exactness and authenticity: Vous ferez bien de traduire pour l'usage de vos compatriotes le petit livre sur les découvertes faites entre le Kamtchatka et l'Amérique.
