Don Blackman, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Tropiline Bajan Design (USA Design Patent Des 328198 S), the best modern product design ever to come out of an emerging market and is a major advance in international modern art with cultural, personal, and regional influences all synthesized to produce a masterpiece. It is a single line drawn in space as the essence of the design, like Malevich's rotated linear squares, Saarinen's St. Louis Arch, and Brancusi's Bird in Space! Even less is even more permeates the philosophy, which is an amazing chronology of the creative process, the struggles of innovative artists, perseverance and determination (as the design moves around the world from Barbados, to Denmark, to China); with a challenge to all emerging markets (and communities) to move forward modern progressive principles in an age of increasing globalization and international cooperation.
