Lauren Goodkind, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Lauren Goodkind, who is a respected chess teacher in the San Francisco bay area, wrote 50 Poison Pieces, a fun puzzle book to help her students and any novice chess player to avoid capturing unprotected pieces that look safe to capture, which are actually poison! Taking a poison piece gives your opponent the potential to execute a basic tactic, such as a fork or skewer. Next, you turn the page to learn why capturing that piece is the poison piece. Then immediately you are shown two alternative moves. One is bad and will lead to a losing position. But the other move puts you on track to a win. Which move will you pick? By learning to avoid capturing poison pieces, you will start to understand and use the most important chess strategy of all: always think ahead! Players rated under 1000 will especially benefit from 50 Poison Pieces.
