DR. ROY S EVERYTHING GRAMMAR VOLUME 2 (PAPERBACK)

Strategic Book Publishing Rights Agency, LLC, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Dr. Roy s Everything Grammar Volume 2 focuses on the more complex side of grammar. This includes problems in phrases and clauses, common errors, special cases, rules, and paragraph style. Lessons include a large amount of student work and a speaking element. The units may also be studied as single focus units, which teachers may use as needed and in any sequence. Dr. Paul R. Friesen has worked in the ESL education field for fifteen years, developing materials for a wide range of students. Currently this book is in some private schools in South Korea. The process of writing what they re thinking helps students retain their learning longer. The style is easy to work through quickly, helping students feel a sense of accomplishment. Using the 7 Step to Story making plan, students can put larger blocks of learning into stories, thereby creating a more creative lesson for the teacher, and one that is more challenging for the student. Dr. Paul R. Friesen is a professor of English in South Korea. Using ideas and tweaking them to fit each class is part of teaching. I grew up in West Africa. My parents were involved in education, and I went to an international school where I was blessed with good teachers. This mix of cultures and education makes the learning ideas put into the book perhaps a bit unique. He has also self-published in the genres of poetry, Bible study, and ESL.
