

The Issahar Artifacts (Hardback)

By Jesse F Bone

AEGYPAN, 2011. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The following manuscript was discovered during careful excavation of a site that might yield artifacts of cultural significance. And yield it did: The debris proved to be the remnants of an ancient spaceship similar to those described in Sector Chronicles IV through VII, but of much smaller size and cruder design -- obviously a relic of pre-expansion days. Within the remnants of the ship was found a small box of metal covered with several thicknesses of tar and wax impregnated fabric which had been mostly destroyed. The metal itself was badly oxidized, but served to protect an inner wooden box that contained a number of thin sheets of a fragile substance composed mainly of cellulose which were brown and crumbling with age. The sheets were covered with runes of lingua antiqua arranged in regular rows. The genuineness of this fragment has been established beyond doubt. Radiocarbon dating places its age at ten thousand plus or minus one hundred cycles, which would place it at the very beginning of the Intellectual Emergence. -- Barragond, Monitor of Cultural Origins and Relics, Kwashior Central Repository.
