VIBRATIONAL STIRRING IN BRIDGMAN CRYSTAL GROWTH

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Low-Frequency Vibrations to Control Fluid Flow | This PhD thesis examines a promising stirring technique called coupled vibrational stirring (CVS) with the aim of quantifying its effects so that it could be applied to the Bridgman growth of technologically important materials. CVS generated flows were directly studied using a physical modeling system containing water/glycerin. Sodium nitrate was chosen as a model growth system due to its transparent melt and solid. Lead magnesium...

Reviews

This composed book is wonderful. It is really basic but excitement from the fifty percent of the ebook. You wont really feel monotony at at any moment of your own time (that's what catalogues are for regarding if you request me).

-- **Summer Quigley Jr.**

It is fantastic and great. It is actually rally exciting through reading period. It is extremely difficult to leave it before concluding, once you begin to read the book.
