

Activities Handbook for the Teaching of Psychology

By -

American Psychological Association (APA). Paperback. Condition: New. 472 pages. Dimensions: 11.0in. x 9.2in. x 0.9in. This volume contains a wide range of exercises that emphasize active learning. Each of the 80-plus exercises is described in a cookbook format that allows the instructor to quickly see the concept underlying the activity, materials needed, and class time required. The activities are appropriate for introductory courses at college or high-school level, yet many are also applicable to more advanced classes. Both beginning and more experienced teachers should appreciate the variety of teaching approaches, which include demonstrations, experiments, discussions, and simulations. The activities are grouped by topic and cover critical thinking, research methods and statistics, biopsychology and animal behaviour, sensation and perception, learning, memory, cognition, emotion, development, human diversity, social psychology, personality, and psychological disorders. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

This book is great. It is written in simple words and not difficult to understand. I discovered this pdf from my dad and I suggested this ebook to find out.
-- Prof. Webster Barrows

This ebook is fantastic. We have read it and I am confident that I am going to read through it again yet again in the future. I can easily get a pleasure of reading a published ebook.
