REMOTE SENSING OF THE EARTH FROM SPACE: ATMOSPHERIC CORRECTION

Condition: New. Publisher/Verlag: Springer, Berlin | The monograph being proposed for the English-speaking research community is concentrated on the atmospheric correction of satellite images as a part of thematic interpretation procedures while processing remote sensing data. For linguistic reasons a large section of the community may have been unaware of the progress made in Russia in this field of science and technology. Meanwhile, Russia was the first country to launch the first artificial satellite in 1957 and to obtain from...
