EATERS OF THE DRY SEASON: CIRCULAR LABOR MIGRATION IN THE WEST AFRICAN SAHEL

The Perseus Books Group, United States, 2001. Paperback. Book Condition: New. Revised ed.. 225 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.In this illuminating new work on the geography of poverty, David Rain dispels the notion that relentless human mobility is a byproduct of Western technological advances like superhighways and airports. Instead, it is much older and more deeply ingrained in the human spirit. Every year after the rainy season ends in the arid West African Sahel, hundreds of thousands of men and women leave their villages to work in the informal economies of West African cities. The seasonal flux of peasants swells urban markets and neighborhoods, as it has for centuries. These migrants, called masu cin rani in Hausa, or those who eat the dry season, travel after their crops are harvested in order to conserve household food supplies and earn money which is funneled back to their villages of origin. These eaters come from all walks of life, though they are more commonly poor and living by their wits. This book focuses on the activities of the seasonal migrants, persisting as they have through colonial and postcolonial changes, and constituting an important response to uncertainty in the region. Based on a combination of survey-interviews and geographic analysis, the book regards the migrants as practical people who are simply making the best of what has been dealt to them. Contextual and panoramic, and centered on the immediacy of daily and seasonal routines, *Eaters of the Dry Season* delves deeper than typical alarmist accounts of African drought and famine, which are all too common in current literature. It will challenge laypeople as well as scholars and policymakers to consider how actual people respond to global changes in the next century, especially for the billions who are...
