

A new generic Approach for Web based Dashboard Solutions

By Kajorn Pathomkeerati

AV Akademikerverlag Mai 2017, 2017. Taschenbuch. Condition: Neu. Neuware - Information dashboards are an effective visual tool for presenting various kinds of information related to a certain business entity at the same time in a very compact form on a screen. This book introduces a new concept for implementing a dashboard solution to overcome the both challenges: consistency of dashboard rendering during a change between entities and multi-domain support. The pillars of this book include: 'requirements' - analyzing requirements and constraints from two practical use cases, 'concept' - a new generic concept for a dashboard solution, 'prototype' - implementation of the new concept, and 'testing' - discussing about compatibility and suitability of the concept. 124 pp. Deutsch.
