# PRACTICALS AND VIVA IN MEDICAL BIOCHEMISTRY

Elsevier/Paras Medical Books, 2004. Softcover. Condition: New. This book presents a systematic exposition of the Biochemical techniques involved in the Study of Disease process, Diagnosis and prognosis. The Procedures relating to both automatic analyzers and manual analytical methods have been highlighted. The exposition is broadly divided into two parts. The first presents the Methodology and viva voce questions pertaining to the Practicals. Clear cut tables and calculations for the performance of each experiment are included in the practicals. In addition,...

## Reviews

*This written publication is wonderful. It really is simplified but unexpected situations inside the fifty percent in the pdf. You will not truly feel monotony at at any moment of the time (that's what catalogues are for about in the event you request me).*

-- **Dr. Jamar Willms**

*This publication will be worth purchasing. It is written in straightforward words and not hard to understand. I am just very happy to explain how here is the best ebook we have read in my own lifestyle and might be the best publication for at any time.*

-- **Devante Mante**
