

Contributions from the Biological Laboratories in Princeton University Volume 1

Filesize: 7.54 MB

Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

General Books LLC. Paperback. Book Condition: New. This item is printed on demand. Paperback. 102 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896. Excerpt: . . . CONTRIBUTION TO THE EMBRYOLOGY OF THE LIZARD; With especial Reference to the Central Nervous System and some Organs of the Head; together with Observations on the Origin of the Vertebrates. HENRY ORR, PH. D. Un1vers1ty Fellow In Biolooy At Pr1nceton, N. J. INTRODUCTION. The embryology of the lizard has been investigated in parts by various authors, yet all the work done on the subject is hardly so complete as to warrant a monograph. Concerning the segmentation of the egg and the formation of the germ-layers we are indebted for our knowledge to Balfour Hoffman and Weldon These earliest stages of development were lacking in the material collected by me, so that my work begins about the stage where that of Balfour and Weldon ended, and deals with the early development and differentiation of some of the organs. The most comprehensive contribution hitherto made to lizardembryology is that of Hoffman. Strahl, in a series of articles in the Arch. f. Anat. u. Phys. (Anat. Abth.) 81-87, has described the relations of the amnion and some anatomical features, but his methods prevented him from entering upon details requiring a finer histological investigation. The material for the present investigations was collected by me while a member of the zoological expedition generously equipped and sent to Abaco, Bahamas, W. I. , by the Johns Hopkins University. The specimens have been kindly identified for me by Prof. E. D. Cope. 1 Balfour. --On the Early Development of the...
