Brand New Book ***** Print on Demand *****.From the Medical Bulletin: A Monthly Journal of Medicine and Surgery, Volume 3 [1881]: This admirable work forms the sixth volume of the Library of Standard Authors for the current year. It contains twenty-one chapters by Prof. Charcot, devoted almost exclusively to the consideration of gout and rheumatism, the latter three bearing specially on the value of thermometry in old age. The important subject of gout is handled in a masterly manner by the distinguished pathologist, and it is undoubtedly true that the gouty diathesis underlies not alone the diseases to a great extent of old age in this country, but also those of the middle or mature period of life, and in this respect the value of the book to the general practitioner will be at once apparent. In this connection the concomitant diseases of gout as described are of much interest, and the proper method of study and diagnosis is clearly laid down. Although, as is well understood, the disease is greatly modified by climate and locality, and the volume was written for French territory, a careful perusal of the work will throw much light upon maladies which in many instances are to American practitioners not alone of doubtful origin but difficult to manage. Many obscure cases now ascribed to malarial poisoning can be readily cleared up in the light thrown upon them in this work. Rheumatism, in its varied phases, receives the attention it deserves, the relation between the acute articular form and gout, as also chronic and visceral types, being thoroughly described, in a succinct yet comprehensive manner. The treatment of these disorders is discussed at length, due stress being laid on the value of the older remedies, colchicum,...
