Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The Application of Simulation to Improve the Operational Test and Evaluation of Command Support Systems | This book describes the application of simulation techniques to the operational test and evaluation (OT&E) of command support systems (CSS). OT&E is essential for ensuring that systems are effective, suitable for service and meet the end users' needs. Simulation can be used in OT&E to simulate entities that cannot be obtained for real-world OT&E and to...
