By James Compton Burnett

B Jain Publishers Pvt Ltd. Paperback. Book Condition: new. BRAND NEW, Vaccinosis & Its Cure by Thuja: With Remarks on Homoeoprophylaxis, James Compton Burnett, The book is not an anti vaccination treatise but an attempt to introduce the concept that vaccination can inculcate a diseased state onto the vital force which Burnett called vaccinosis. The aim of the book is to show that a) there exists a diseased state of the constitution which is engendered by the vaccinal virus vaccinosis or vaccinal state b) there exists in nature a notable remedy for said vaccinosis Thuja occidentalis by reason of its homoeopathicity c) applicability of law of similar to the prevention of disease. The book teams up with acute and chronic cases of vaccinosis showing the ill effects and consequences of vaccination and contribution of Thuja as a preventive medicine according to the law of likes & dynamics homoeoprophylaxis. An attempt has been made to study the nature of Homoeoprophylaxis and the importance of law of similars in prophylaxis through examples.

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It has been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

-- Beverly Hoppe

Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my mother and dad suggested this ebook to discover.
