

The Interagency Conflict Assessment Framework: A Pragmatic Tool for Army Design (Paperback)

By United States Army Maj Anthony B Poole

Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. A common perspective among U.S. interagency partners today is that any step towards more effective and coordinated responses to contemporary security challenges requires an improved and shared understanding of the nature of the conflict and the environment in which it exists or may potentially emerge. They also agree that this requires both a joint interagency process for conducting the assessment and a common conceptual framework to guide the collection and analysis of information. In October 2008, an interagency committee officially adopted the Interagency Conflict Assessment Framework (ICAF) as the conceptual tool which informs interagency planning for conflict prevention, mitigation and stabilization. Because the Army is increasing its practice of deploying more planners to support interagency planning while also involving more interagency partners in its planning, this demonstrates the need to examine ICAF methodology in order to determine its compatibility with and utility within Army doctrinal planning processes. In March 2010, design was officially introduced into Army doctrine as a new conceptual planning component complementing detailed planning. It is a meta-perspective approach that provides military leaders with advanced cognitive tools...
