Ashgate Pub Co. Hardcover. Condition: New. 250 pages. Dimensions: 9.3in. x 6.5in. x 0.9in. Examining the impact of the English and European Reformations on social interaction and community harmony, this volume simultaneously highlights the tension and degree of accommodation amongst ordinary people when faced with religious and social upheaval. Building on previous literature which has characterised the progress of the Reformation as slow and piecemeal, this volume furthers our understanding of the process of negotiation at the most fundamental social and political levels - in the family, the household, and the parish. The essays further research in the field of religious toleration and social interaction in the late sixteenth and early seventeenth centuries in both Britain and the wider European context. The contributors are amongst the leading researchers in the fields of religious toleration and denominational history, and their essays combine new archival research with current debates in the field. Additionally, the collection seeks to celebrate the career of Professor Bill Sheils, Head of the Department of History at the University of York, for his on-going contributions to historians understanding of non-conformity (both Catholic and Protestant) in Reformation and post-Reformation England.
