Reviews

Thorough information! Its this type of great go through. It is amongst the most incredible publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

Xulon Press, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. In the Beginnings is a defense of the biblical Gap Theory of Creation. This theory, once popular in the late 19th and early to mid 20th centuries, has been rejected by many modern-day creationists as being without biblical or scientific support. This book takes an in-depth look at both science and the Bible. Its purpose is to show how the Gap Theory better fits the scientific and biblical facts. More importantly, its main purpose is to reach out to unbelievers who think the Bible teaches things contrary to science. True scientific facts and true Biblical truths do not contradict. The basic assumption of the author is that God is smart enough and powerful enough and sovereign enough to make His Works and His Words agree. Because God reveals His invisible attributes in His handiwork, the author uses both God's Word and His work to share the Gospel of Jesus Christ. Dr. Steven Dill, once a staunch evolutionist, began investigating creationism after becoming aware of some scientific facts that seemed incompatible with his own beliefs. Taking the position that truth will stand the test, he began challenging even his own ideas about the origin of the universe. His conclusion was that true scientific facts and true Biblical truths do not contradict, and in this book he presents a new look at an old theory that preserves the integrity of both science and the Bible. He earned his Bachelor's Degree in Biology in 1979 and his Doctorate of Veterinary Medicine in 1985 at the University of Missouri-Columbia. He is currently a practicing veterinarian in Jeffersontown, Kentucky where he lives with his wife, Linda, and two dogs, Samwise Gamgee and Rosie Cotton....
