A third edition was issued in 1892, omitting the discussion of the relative merits of anthracite and bituminous coal; the form of the tables was altered in some particulars and many additions and corrections were made. A fourth edition was issued in 1900 and a supplement thereto in 1905. In the compilation of the present edition information has been obtained from reports from cruising vessels and other official sources, from the proprietors of docks and industrial establishments, and from various commercial and technical publications, such as the Dock Book of the British Hydrographic Office, and Lloyd's Register. This compilation was made by direction and under the supervision of rear-admiral Raymond P. Rodgers, U. S. N., formerly Chief Intelligence Officer.
