SUPERMAN UNVEILED (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What you are about to read is the true, untold story of the god the world has come to know as Superman. There are many things that must be cleared regarding this man, much lore and superstition that must be debunked if we ever hope to grasp his true identity and nature. The first fable that must be put to bed, is the notion that Superman is an alien from Krypton, a fiction clearly made up to protect his actual identity. You see his story is real, and that is why it has been told, this is why you think you know it. However not unlike witnesses whose identity is closely guarded and kept secret for their own safety and wellbeing, so is the real Superman cloaked under the guise of comic books, myth and legend. This does not mean that he came to be via the womb of a terrestrial, which is also not the case. No, the real Superman was forged in the hellfire of Hades, wrought by the molten lava of the underworld and birthed by a spewing volcano. Out of respect for his privacy, the particular volcano that brought Superman into this world will remain nameless. Now that you know he s not an alien, let s discuss his real name. It s not Kal-El. No, Superman s real name (and for the record, he s going to kill me when he finds out I gave it away), is Magnus Janusian. Magnus comes from the Latin term for...
