A variety of viewpoints and research findings on topics subsumed under thanatology receive thorough consideration. This fourth edition features material on: * moral issues and court cases concerned with abortion and euthanasia; * the widespread problem of AIDS and other deadly diseases; * the tragedies occasioned by epidemics, starvation, and war; and * the resumption of capital punishment in many states. The book's enhanced multicultural tone reflects the increased economic, social, and physical interdependency among the nations of the world.
