Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The object of these little books is not so much to give full, scientific information with regard to the animals of which they treat, as to bring before the child such facts concerning them as shall interest him in their history, awaken a desire to know more of the particular traits of each, and especially lead him to be kind to them as a part of God s creation. Natural history we deem, according to the opinion of an eminent writer, as not only the most captivating of the sciences, but the most humanizing. It is impossible to study the character and habits of the lower animals without imbibing an interest in their wants and feelings. Dr. Chalmers, who was famous for his interest in the brute creation, says, To obtain the regards of man s heart in behalf of the lower animals, we should strive to draw his mind toward them. The poor brutes look, tremble, and give the signs of suffering, as we do. A threatened blow strikes them with terror, and they have the same distortions of agony on the infliction of it. Their blood circulates as ours does.
