

Climatological Atlas of the People's Republic of China

By The editorial committee

2002. Hardcover. Book Condition: New. 1st Edition. Language: Chinese Size: 41 cm Number of Pages: 250 The charts were included into the Atlas: China Topographic Map, Administrative Divisions Map, Map of China Climatic Regions, China Agroclimatic Regions and 5 Climatological Chart series. The latter fiver series are the Essential Climatological charts with 162 charts (temperature, precipitation, sunshine, humidity, cloud, wind and ground temperature); Physical Climatological Charts with 53 charts (radiation, heat and moisture balance); Synoptic-Climatological Charts with 9 charts (tropical storms, severe tropical storms, typhoon and cold waves); Climate Change Charts with 12 charts (temperature and precipitation variations); Applied Climatological Charts with 99 charts (agroclimatology, engineering climate and aviation climate). The total amount of charts in the Atlas are 339. The projections of base maps used for original analysis are equiangular conic. All maps for Synoptic-Climatological Charts adopted the 30° and 60° N as standard latitude with a scale of 1:20000000 and for other chart series they are 25°, 47°N and scale 1:8000000 respectively. All charts were analyzed based on basic data of 30 years (1961-1990) normals which comply with the International Standard defined by WMO. In addition to the selected 655 stations from National Reference Network, the Essential Climatological...
