Reviews

The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.

(Dr. Reta Murphy)

LA VIA DEL COSMO. SPUTNIK, LUNIK, VOSTOK: L'ASSALTO SOVIETICO AL CIELO.

Pgreco (Milano), 2013. Book Condition: new. A cura di Rossi D. Milano, 2013; br., pp. XVIII-214, cm 14x21. Gagarin. Basta il nome. È forse oggi incredibilmente difficile far percepire quanto, mezzo secolo fa, bastasse il nome, solo quel nome, che poi era il cognome di Jurij Alekseevic Gagarin, per muovere in milioni e milioni di persone di tutto il pianeta un entusiasmo paragonabile allora solo a quello della prima rockstar, Elvis Presley. Non è un caso se questi due personaggi rappresentano al meglio i modelli sociali e politici che si scontrano nella guerra fredda. Lo statunitense Presley simboleggia il giovanilismo ribelle, la cosiddetta libertà americana. Gagarin è la massima rappresentazione del mito dell'uomo sovietico: bello, bravo, studioso, laborioso, impegnato. È lo scontro epocale tra due superpotenze che in quell'inizio di decennio, nel 1961, moltiplicano il confronto, non solo nello spazio, ma anche sulla terra, anche perché a Cuba hanno vinto Che Guevara e i fratelli Fidel e Raul Castro. Gagarin realizza un vivace ed emozionante racconto della sua vita, che è anche quello della scienza sovietica, dei successi conseguiti e dei sogni di una generazione. Di lui Gianni Rodari ha scritto: "Il volo di Gagarin è stato reso possibile dal lavoro, dalle sofferenze, dalle speranze, dalle lotte di centinaia di generazioni, è il fiore bellissimo che non può sbocciare se non ha stelo, radici e tanta buona terra intorno. . L'uomo dello spazio. non Icaro, che sogna di toccare il sole e cade. Lui vola e ritorna e ci dice che la strada è aperta." Prefazione di Margherita Hack.
