Tufnell Press, United Kingdom, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Learner biographies and learning cultures constitutes an important contribution to the under-researched field of vocational education and the school-to-work transition. Drawing on Butler s concept of discursive agency and Alheit s biographical approach, the book offers a new conceptual and methodological framework for exploring young people s construction of identity over time as well as in the specific learning sites of apprenticeship - the workplace and the college. The particular approach, concerned with young people s situated subjectivities, sets it apart from existing research, much of which focuses on social reproduction and portrays young people in vocational education as non-academic with enduring identities. The comparative, multi-method ethnography is an in-depth study of sixteen apprentices in England and Germany, on two contrasting apprenticeship programmes-retail and motor vehicle maintenance. Bringing together a wealth of rich material, including young people s life stories and data from observations in workplaces and colleges, it paints a compelling picture of the individual young people as they negotiate learner identities over time, in multiple life domains and in the learning cultures of the workplace and the college. The cross-national comparative design, contrasting the high-quality German dual system with the variable provision of apprenticeships in England, highlights the significance of discursive regimes in young people s identity construction. It is argued that learner identities are not natural or abiding, but are formed through concrete experiences of learning and constituted in institutional settings with discursive frameworks that prioritise certain forms of knowledge. The findings challenge one of the most common stereotypes of young people in vocational education in England today-that they are naturally non-academic and that vocational pathways need to provide predominantly practical training. The book is of potentially far-reaching...
