Navigation For Beginners: Don t Get Lost In The Wilderness And Find Food and Water Without Map The idea of this book is to rekindle the methods that can be used to find a location or we can say to ease navigation. With fast moving world everyone has accessibility to new gadgets and technologies. These gadgets are very easy to use and are accurate in many ways while giving output. With all these things being said we know that before these gadgets our elders used to work out things on their own, using all the resources available at that time and remember this they and their intellect is the only reason we are standing on this level where we have automate maximum routine work of our lives. Besides all this even today in some parts of the world these methods could be still use to find a way, food or water. So the text will be helpful for those of you who are interested in other methods of navigations other than maps or compass. To keep things easy I have focused on early methods with their short history and origin. This book will surely bring you back to somehow ancient times the intellect, the knowledge, tools and resources they had used for navigation purposes. The book is divided into seven sections each of which will give you comprehensive overview and step by step procedures and methods. We will gradually start with the introduction and importance of navigation leading to key areas and resources that are used in the process of navigation. You will be learning interesting facts and techniques regarding navigation in this text. Download your E book Navigation...
