By Books Group

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm.

Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1878 Excerpt:

.hypophosphates of lime, soda, potash and magnesia all have a direct effect upon the tissueforming system. The hypophosphate of lime, in small doses, say 1 or 2 grains, will increase nerve-power, thereby increasing vitality. The hypophosphate of potassa acts more upon the muscular system, bronchial mucous.membrane instead of the lung tissue, hence it is applicable in bronchitis, and the lime salt is applicable in phtisis pulmonalis. This fact is not appreciated, and hence the many failures in their use. (To be continued.) Vicksburg, Miss., Nov. 5, 1878. Messrs. Editors: During the last two months I have treated, and seen treated, 300 cases of yellow fever, and I therefore claim to speak understandingly of the disease as far as I say anything. You must admit that personal observation is worth more than speculation. I write to correct some crude ideas in regard to yellow fever which are...
