CLIMATE CHANGE AND DISEASE DYNAMICS IN INDIA

TERI Press, New Delhi, 2012. Hardcover. Condition: New. Planetary health is today inextricably linked to population health. Climate change, an integral part of planetary health, is foremost among global environmental changes affecting human health. This mammoth challenge is characterized by the potential risk to cripple health systems worldwide and profoundly alter disease dynamics, thereby threatening the well-knit fabric as well as growth of society. Unfortunately, much of the evidence for these link ages has come largely from the developed world....

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.
