We could all agree that pasta is a staple food to have in your pantry or your fridge. Kids love them, adults love them and you can prepare them multiple different ways. Different shapes, different colors, different combination of meats, veggies and sauces. However, isn't it nice to pull out a single book from your library and be able to review many different pasta recipes, without having to go from one recipes book to another? This is exactly what we are proposing here in this cookbook. You will also be impressed how we introduce some soups made with pasta, some cold salads and even some desserts! Get ready to enjoy pasta like you never had before! We will keep our suggested recipes simple, accessible, but at the same time delectable and extraordinary.
