Nazism cursed the European continent and tried to dominate the world. It was a racist dogma enforced by racist bullies and brutal criminals. Before Adolf Hitler was crushed, between 50 and 60 million people died. Nazis extended their cruelties into the realm of medicine, their grinning doctors, many of them once distinguished professors with advanced degrees, torturing thousands, including children, to death in grisly ways in filthy back rooms at the many Nazi camps or in special murder clinics. This book discusses some of the hideous crimes against humanity they committed, all of it with a clear conscience and without a second thought. There is also a section on medical experiments and atrocities carried out, even in the days of the 21st Century, in a developed country near you.
