Outdoor Studies: A Reading Book of Nature Study

By James G Needham

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.From the Authors PREFACE. THE years that intervene between the primary and the high school, for all of which nature study is now prescribed, cover a very wide period of mental development. For the earlier years of that period there is now no lack of books, offering object lessons, guides to random observations, stories of common things interweaving facts with interesting fancies to the edifying of imaginative childhood. This little book is intended to supply for the later years of that period a few lessons of greater continuity, calling for more persistence of observation, and introducing a few of the simpler of our modern conceptions of nature at large. These lessons presuppose some years of experience of life and some previous training in observation. They are not given as stories, nor for the sake of language lessons primarily, but for the sake of the interest and educative value of the facts and phenomena of nature which they set forth. In writing them I have had in mind the boys and girls more than the teachers....
