ORIGINAL CONTRIBUTIONS TO OPHTHALMIC SURGERY (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Original Contributions to Ophthalmic Surgery As frequent applications have been made for copies of my Clinical Demonstrations on Ophthalmic Subjects, originally published at different periods, but now for some time out of print, I have thought it desirable to republish them in a collected form. New matter - viz., a report of the Demonstration on Extraction of Cataract given last year at the Meeting of the British Medical Association in Glasgow, and a paper on the operation for Staphyloma - has been added, and all the subjects treated have been brought up to date. In my former publications I was under the necessity of appealing to my own work in support of my operations, but the acceptance of these operations by the profession has now relieved me of that necessity, and rendered the preparation of these sheets for the press an agreeable labour. For instance, the success of the demonstration given in Paris on my operation for Detachment of the Retina, and, more recently, the clinical experience of Prof. von Esmarch as to the practical value of my method of performing plastic operations, have now securely established both. I thus submit to the notice of the profession not mere theories, but operations, which have brought within the control of practical surgery pathological conditions previously regarded as incurable, and I venture to hope that this fasciculus will obtain for them still wider recognition.
