FROM THE MARGINS TO NEW GROUND: AN AUTOETHNOGRAPHY OF PASSAGE BETWEEN DISCIPLINES

Sense Publishers, United States, 2015. Paperback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book ***** Print on Demand *****.The authors, two sociologists, discover, follow-up, examine, and make sense of the cross-roads where the social and life sciences meet, surprised by the emergent story which they simultaneously witness and document. Together, they focus on Lea Hagoel s professional path as a medical sociologist fitting in with bio-medical scientific work patterns of a multi-disciplinary team of physicians, nurses, bio-statisticians, IT personnel, molecular biologists, and managerial-administrative team members. Lea shared her experiences with Devorah, and what developed into this book consists of the story itself - the unfolding of events as observed and described by Lea who tells what it was like for a sociologist. Her story unfolds in the context of the ongoing dialogue which lasted more than two decades and turned into an autoethnography a deux. Finally, the ethnographers offer insights into the world of biology and medicine, into women s lives, into being a native in a disciplinary culture, and into transdisciplinarity. In three parts, the book describes and theorizes the quest of a medical sociologist for transdisciplinarity. Part I explores the theoretical background, Part II presents the story of different stages in Lea s experiences tracing the trajectory of her growing professional repertoire and discovering the practical meaning of how cross-disciplinary knowledge affects her performance as a researcher in the organization with which she is affiliated. Part III draws conclusions about what moving between disciplines can mean for a researcher.
